Addressing Bias in Healthcare: A Tool for Change

When: Thursday December 5th, 2019
8:00 AM - 4:00 PM
Location: Poughkeepsie Hampton Inn
2631 South Road, Poughkeepsie, NY 12601

The health of marginalized populations is impacted by bias and inequities that exist in healthcare. This day-long workshop is designed to train professionals to address these public health concerns and provide skills necessary to provide self-advocacy tools to improve health outcomes through education, interactive activities, and action planning. Participants will leave this training with the knowledge and ability to address the disparities in our medical system that are structured to leave many behind.

Identify key ways to address health literacy in healthcare
Learn advocacy tools for better patient care
Apply learned skills in an interactive and supportive setting
